## ASL CELEBRATES NATIONAL LIBRARY WEEK 2008 DAY 4: WORD SUDOKU

Place the letters in the grids below. This is a variation of the popular *sudoku* puzzles. Instead of numbers, place the following letters in the each of the grids. Like in regular sudoku, you cannot repeat a letter in the same row or column, or within each darker 3x3 grid. Therefore, each letter will appear once and only once in each column, row, and 3x3 grid. (For complete instructions on playing "regular" sudoku, check out <http://www.websudoku.com/> or <http://en.wikipedia.org/wiki/Sudoku> .)
